Elcometer Strengthens Their Position In Argentina

Elcometer are pleased to announce that our new Principle Coatings Inspection Distributor in Argentina is Abastecedora Gráfica S A based in Buenos Aires.

Abastecedora Gráfica is well established in Argentina as Elcometer and X-Rite distributors. As part of the continued development of the market Abastecedora Gráfica has also become a Service Centre for Elcometer coatings inspection products.

During March 2010 both Fernando Cavalieri and Martin Besuzzi visited Elcometer's head office in Manchester England for Product Service & Repair Training. Fernando and Martin are pictured with John Fletcher our Technical Support Manager receiving their certificates after having successfully completed the week-long service & repair program.

During their visit Abastecedora Gráfica team received additional training on some of the new products in the Elcometer range including the Elcometer 224 Digital Surface Profile Gauge and the Elcometer 319 Dewpoint Meter.

Colin Bennett, Elcometer's Sales Manager for Argentina stated that "the partnership with Abastecedora Gráfica will improve our position in Argentina; we are confident that the Elcometer brand will continue to develop in a market that continues to show year on year growth."

Abastecedora Gráfica can be contacted at: Cochabamba 670, Ciudad Autónoma de Buenos Aires, Argentina or via their website www.abastecedoragrafica.com.ar
